PROFILE

UX/UI and Product Designer with 7+ years of experience across digital design, and 2+ years designing end-to-end digital products for healthcare, education, beauty, sports, and contract sectors. I combine strong visual craft with structured, user-centered thinking — turning complex requirements into interfaces that are intuitive, functional, and easy to build. Experienced collaborating with multidisciplinary and international teams in fast-paced, remote settings.

EXPERIENCE

Web Designer HYBRID *Dec 2023 – Present*

PROQUINAL · BOGOTÁ, COLOMBIA

- Designed and prototyped UI for desktop and mobile landing pages in Figma, following a Mobile First approach.
- Applied Design Thinking methodologies to research, define, and validate user-centered solutions.
- Coordinated and communicated digital guidelines with international teams.

KEY ACHIEVEMENTS

- Led the design of the Masiala and Valencia Biosense 2024 landing pages, recognized internally for increased engagement and visual quality.
- Contributed to the development and optimization of 10+ web projects, improving conversion and usability metrics across multiple platforms.
- Implemented UX validation cycles with real users, reducing friction across each product's digital experience.

UX/UI Designer HYBRID *Mar 2023 – Nov 2023*

DAVIFIESTAS · BOGOTÁ, COLOMBIA

- Redesigned the company website's user experience and visual interface.
- Created strategic visual content and optimized digital navigation.
- Prototyped and continuously improved the web platform.

KEY ACHIEVEMENTS

- Redesigned the site's navigation architecture, driving a visible increase in engagement and time on site.
- Graphic content directly contributed to increased conversions and sales on the digital platform.

Digital Designer FREELANCE / REMOTE SERVICES *Apr 2018 – Jun 2025*

OPTIMATES SOFTWARE · BOGOTÁ, COLOMBIA

- Designed mockups and interfaces for web, mobile, and apps in Figma and Illustrator for multiple external clients.
- Created multimedia content for web — banners, takeovers, galleries, and graphic assets — using Photoshop, Illustrator, and After Effects.

- Redesigned websites and new UI components across industries: healthcare, education, sports, and e-commerce.
- Managed image and gallery content for web content platforms.

KEY ACHIEVEMENTS

- HUSI Interactive Game: designed the full visual experience of a gamified adventure for Hospital Universitario San Ignacio, making medical manuals faster and more intuitive to review. Reached 1,000+ active users, significantly improving staff evaluation experience.
- HUSI Joint Work Plan App: contributed to the design of a planning app for hospital physicians and students to coordinate joint activities — my first mobile app design project, completed before finishing my degree.
